## BRITISH GIVE UP ARMENTIERES

LOSE CITY BUT LINE HOLDS FIRM AT OTHER POINTS OF ATTACK.

(By the Associated Press)  
London, April 11.—The British have withdrawn from Armentieres on the northern battle front, the war office announces. Violent fighting continues along the front from La Bassée canal to the Ypres-Comines canal. North of Armentieres heavy fighting was continuing late last night but with little change in British positions.

**French Repel Attack**  
Paris, April 11.—A German attack in the Champagne last night was broken up by French fire. On the principal battle front there was heavy artillery fighting between Montdidier and Noyon.

**British Holding Ground.**  
With British Army in France and Belgium, April 11.—Fighting is continuing this morning north of Armentieres with the British still holding Messines Ridge and Wytschaete, which yesterday changed hands several times. The enemy during the day succeeded in entering Lacreche, Nieupe and Hollebege, but vigorous counter attacks drove him out.

**British Advance in Palestine.**  
London, April 11.—British troops April 9 advanced their line north of Jerusalem in Palestine, to a depth of one and half miles on a five mile front, the war office announces.

**Steamer Sunk.**  
New York, April 11.—The British steamship Minnetonka 13,528 tons gross, formerly in the passenger trade between New York and London, was sunk by a German submarine in the Mediterranean during February, the Maritime Register reports.

## U. S. NAVAL BASE ON AZORES ISLANDS

(By the Associated Press)  
Washington, April 11.—For protection of Atlantic trade routes to Southern Europe the United States, with Portugal's consent, has established a naval base on the Azores islands. Guns have been landed to begin fortification. An important homing station for airplanes, with a number already assembled there, will also be established.

## TROOPS OF CAMP BOWIE IN REVIEW

(By the Associated Press)  
Fort Worth, Texas, April 11.—Twenty-seven thousand trained soldiers of the Thirty-Sixth Division, mostly Oklahomans and Texans, passed in review today before Brigadier General Greble, division commander. Governor Williams of Oklahoma was also in the reviewing party.

## OKLAHOMA INCOME TAX WILL REACH \$30,000,000

Okla. City, April 11.—In New York, Massachusetts and other eastern states it has been estimated by internal revenue collections that the tax collected from individual incomes is only three times as much as it was last year, but in Oklahoma the tax to be collected will be almost five times greater than the amount collected during the fiscal year which ended June 30, 1917, according to an estimate made yesterday by Hubert L. Bolen collector for Oklahoma.

"The number of individual income tax returns received in this office up until the present time and filed according to law, is almost 50,000," Bolen said. "These figures are only what I believe to be a conservative estimate."

The collector estimated that the amount collected in taxes by the government in Oklahoma from incomes up to the present time is about \$20,000,000. A large number of individuals and corporation and partnership concerns have been granted extensions and will file their returns during the present month. When all returns are reported and filed, the collector asserted that for the fiscal year ending June 30, 1918, the aggregate amount collected will be close to \$30,000,000, five times the amount collected in 1917.

**Peculiar Coincidence.**  
Confusion of names took place at a wedding recently solemnized at Llanstadwell, Nyeand, Wales, in which the bride, bridegroom, best man and bridesmaid all bore the names of Thomas, and with the exception that the bridesmaid was a cousin of the bride were all unrelated.

Since the organization of the United States patent office, there have been issued up to February 1, 1918; 1,265,977 patents, 51,700 design patents and 14,429 reissue patents.

## AMERICANS REPEL GERMAN ATTACK

DRIVE STOPPED WITH LOSSES TO GERMANS. TWO PRISONERS TAKEN.

(By the Associated Press)  
With American Army in France, April 11.—The Germans attempted an attack this morning against American positions northwest of Toul just before sunrise, and were completely repulsed. Two German prisoners said the enemy planned to attack with a force of 800 men but that it was stopped in full strength by effective American artillery fire.

The Americans lost no prisoners. One of the German prisoners died later of wounds.  
The German attack came after a violent artillery fire of three days. A large number of the enemy are believed to have been killed in the attack which lasted nearly two hours. The Germans started about 5 o'clock this morning but brilliant work by American gunners dispersed the infantry before they reached the wire entanglements. The attack was followed by a violent artillery duel which was still continuing at a late hour tonight.

## QUEEN OF THE BELGIANS

This latest and most unusual photograph of Queen Elizabeth of the Belgians, is a silhouette made at the front, where she accompanies her husband, King Albert, almost all the time.

## LIBERTY LOAN NOW ABOVE \$200,000,000

(By the Associated Press)  
Washington, April 11.—Liberty loan subscriptions officially reported today from eight of twelve federal reserve districts for the campaign's first three days amounted to \$212,095,220.

## NIGHT RIDERS WARN BOND SLACKERS TO BUY

Tulsa, Okla., April 11.—While a Liberty Loan parade was in progress at Skiatook, a small town near here yesterday, sixteen horsemen garbed after the manner of the Ku Klux Klan rode over the hill at the edge of the town and silently joined in the procession. On banners carried by the riders were the words: "Warning to . . . three men who refused to buy Liberty bonds. Each silent horseman had fastened to his saddle a coil of rope."

## SUMMARY OF DAY'S WAR NEWS

DESPERATE FIGHTING WITH VARYING RESULTS. BERLIN REPORTS CAPTURES.

(By the Associated Press)  
Desperate fighting continues on the twenty-five mile front between Givency and Wytschaete with the Germans suffering severely for some gains against the British defenses. Repeated attacks against the British lines between Estaires and Givency have been checked sanguinarily. Berlin claims the capture of 6,000 men and 100 guns on this sector Tuesday. North of Armentieres the Germans have been unable to gain the crest of the ridge despite numerous assaults. French and German artillery fire has been violent north of Montdidier along the Oise canal northwest of Soissons, but in fantry fighting on Picardy front has quieted down momentarily.

## SUBMARINES MAKE LOW RECORD FOR SINKINGS.

London, April 11.—The sinking of British merchantmen by mines or submarine last week reached the next lowest level of any week since Germany began her intensive submarine campaign early in 1917. Four vessels of more than 1,600 tons, two of less than 1,600 tons and two fishing boats were sent to the bottom.  
The admiralty statement adds: Vessels unsuccessfully attacked eleven, including two previously. Arrivals 2,534, sailings 2,495.  
Both fishermen reported today were sunk during the week ending March 30th.  
The low record in sinkings for any week since Germany began her intensive submarine campaign in the aggregate weight of tonnage sunk was the week of November 11, last. Then only one vessel of over 1,600 tons and five vessels of less than 1,600 tons were destroyed.

## 124 NAMES ON CASUALTY LIST

(By the Associated Press)  
Washington, April 11.—Today's casualty list from General Pershing contains 124 names. The announcement shows one killed in action, two dead of wounds, five dead from accident, thirteen dead of disease, sixty-nine severely wounded, thirty slightly wounded and four reported missing.

## SENATE REJECTS REPORT ON IMPORTANT BILL

(By the Associated Press)  
Washington, April 11.—The conference report of the bill providing severe penalties for destruction of, and interference with production of, essential war materials, and containing a clause giving workmen the right to strike for better wages or working conditions, was rejected today by the senate, 34 to 25.

## What is Your Boy Eating.

Farm and Fireside, the national farm paper published at Springfield, Ohio, says in the "Good Health" department of the April number: "A mother brought her boy to my office recently with the assertion that he needed a tonic. She said he was 'run-down,' nervous, and had no appetite. I asked her what he ate, and she told me he was very 'finicky' about his food. He did not eat any vegetables except potatoes, he ate only certain kinds of fruits and for desserts liked nothing but cake, pie and ice cream. He would not touch tapoca, gelatin, or fruit-alad dessert. Meat must be fried or roasted; if stewed or boiled he would have none of it."

"The difficulty with this child was that he had been allowed to form prejudices against certain foods. Perhaps the first time he had refused a certain food his mother had coaxed him, or she had commanded him to eat it. Either way she impressed upon his mind his momentary prejudice; he had decided that he did not like that food, and had stuck to it. Every time anyone paid any attention to his refusal of the dish, his dislike for it deepened. Thus he became daily more finicky about his meals."

"The only way to treat a child of this kind is to make no special dishes for him. Keep the menu simple, and pass over his refusal to eat various foods with no comment. He will soon learn to accept a varied diet, and will be much better for it."

**So Much Time Wasted.**  
One morning Mary's mother telephoned to a friend and wanted her little son, Richard, to come and play with Mary. When Richard's mamma asked him if he wanted to go he replied, "Poor child, she could have had me all this time."

## OKLAHOMA INCOME TAX

**WILL REACH \$30,000,000**  
Oklahoma City, April 11.—In New  
York, Massachusetts and other east-  
ern states it has been estimated by  
internal revenue collections that the  
tax collected from individual in-  
comes is only three times as much as  
it was last year, but in Oklahoma the  
tax to be collected will be almost five  
times greater than the amount col-  
lected during the fiscal year which  
ended June 30, 1917, according to an  
estimate made yesterday by Hubert  
L. Bolen collector for Oklahoma.

"The number of individual income  
tax returns received in this office up  
until the present time and filed ac-  
cording to law, is almost 50,000,"  
Bolen said. "These figures are only  
what I believe to be a conservative  
estimate."

The collector estimated that the  
amount collected in taxes by the gov-  
ernment in Oklahoma from incomes  
up to the present time is about \$20,-  
000,000. A large number of individ-  
uals and corporation and partnership  
concerns have been granted exten-  
sions and will file their returns dur-  
ing the present month. When all re-  
turns are reported and filed, the col-  
lector asserted that for the fiscal year  
ending June 30, 1918, the aggregate  
amount collected will be close to \$30,-  
000,000, five times the amount col-  
lected in 1917.

The Liberty Loan campaign is still  
the absorbing topic of conversation  
and will be until the books are closed.  
Hindenburg's drive came just in time  
to stimulate the Liberty Loan cam-  
paign by convincing people of the  
danger to which the world will be ex-  
posed in case of a successful cam-  
paign by the Germans.

### THE REAL SLACKER.

It is unfortunate for the United  
States that some of her citizens—na-  
tive born, too—sit around and prate  
about putting the pro-Germans out of  
business and beholding the Kaiser  
when everyone knows they haven't  
bought a Liberty Bond or a Thrift  
Stamp. If the government had to  
depend on such pusillanimous prigs  
for support there would be only one

avenue open whereby war funds  
could be acquired and that would be  
by direct taxation.

When you hear a fellow shouting  
lustily about pro-Germanism and  
vanquishing the Kaiser's forces and  
you know he has not invested one  
penny to help the United States, it is  
safe to place him where he belongs—  
a braggart and a bully, who does not  
care how the war ends. It does not  
cost anything to talk, but it does take  
money to run a war. Any man who  
has the interests of his country at  
heart can buy a Liberty bond. It  
comes with might and grace for a  
fellow who makes the declaration that  
he can't afford it. If the government  
decided to levy its war fund by tax-  
ation he would have to afford it.

The American citizen who is a  
babbler about war activities and pro-  
German sentiments and sits supinely,  
denying the government any support  
in its struggle for humanity, is a  
meaner man than the German sub-  
ject who buys Liberty Bonds and War  
Savings Stamps. Such a man is a  
slacker of the lowest type.

It is this class who endeavor to  
evade the food regulations. An in-  
stance of this kind was related where  
a man bought a sack of flour and two  
or three bushels of seed potatoes and  
prevalled upon the grocer to let the  
potatoes go as food substitute, while  
in reality he bought them for one  
purpose—planting. American citizen-  
ship of this calibre is not very effi-  
cient for government help.—El Reno  
American.

We often wonder why it is that the  
Allies do not stop the drives of the  
Germans, why the British and French  
do not repeat the fight put up at Ver-  
dun. The inside facts we do not  
know. The ground the British have  
given up is ground that was devas-  
tated by the Germans more than a  
year ago. If the British can give up  
territory and save men, such a course  
is advisable. We have utmost faith  
in the integrity and foresight of the  
British, French and American gen-  
erals. What they do we do not ques-  
tion. Sooner or later their actions  
will be explained, and when they are  
explained we believe their foresight  
and military judgment will be praised  
throughout the world.

### BOY POWER

There's all the difference in the  
world between trying to break down  
wise factory laws protecting children  
and making plans for such work as  
older boys can do without hurting  
themselves—such work as will rather  
help them on their way toward man-  
hood. The United States Boys' Work-  
ing Reserve is designed to make the  
services of a million young workers,  
over sixteen years of age, available  
to the Nation. It is organized under  
the Department of Labor and is an  
answer to the appeal of President  
Wilson to those who will in a few  
years be the voters, workers and de-  
fenders of their country, though it is

the unspoken prayer of the nation  
that no such need for defense as the  
present crisis will even confront their  
manhood.

Fortunately, as Marlen Pew ex-  
plains in the July Muesey's, the task  
is chiefly one of tying together a num-  
ber of great organizations already in  
the field. The Boy Scouts, the Young  
Men's Christian Association and many  
smaller groups affiliated in the Boys'  
Club Federation account for some-  
thing like three-quarters of the mil-  
lion the organizers aim to use. All  
the machinery of these organizations  
will facilitate the enrollment. The  
country will be divided into zones,  
the director of each reporting to the  
headquarters at Washington, where  
William Edwin Hall will act as gen-  
eral director. He has served as pre-  
sident of the Boys' Club Federation  
and has recently been engaged in Bel-  
gian relief work.

No boy will be employed at any  
work till he has proved his physical  
capacity to do it. There will be care-  
ful attention to physical welfare at  
every stage of the enterprise. Rec-  
reation will be an essential part of  
all programs. All these details will  
be fixed in a formal agreement with  
the various employers. A large part  
of the service will be farm labor, but  
driving automobiles and other tasks  
are included.

No doubt these lads will cherish  
even above their athletic trophies the  
enrollment badge bearing the great  
seal of the United States. And when,  
at the end of the first work period,  
they get the bronze bars bearing the  
words "Honorable Service, 1917,"  
their feet won't touch the ground.—  
New York Evening Sun.

## GOSSIP FROM THE WORLD OF SPORTS

(By the Associated Press)

Detroit, April 11.—Now that Man-  
ager Jennings has been using his re-  
cruit first baseman, Leo Dessen, as  
lead-off man in the batting order,  
local sport writers are predicting that  
the Detroit Americans will prove un-  
usually dangerous on attack this  
year.

Despite the slugging ability of the  
Tigers and the individual base steal-  
ing ability of Cobb, the Detroit club  
seldom has used the double steal  
play. If Dessen can scout around the  
bases as he did in the American As-  
sociation, or even maintain the speed  
he has shown in practice games this  
spring, he should prove an effective  
partner for Ty Cobb.

Bush has been lead off man for  
several seasons and he is fast on the  
bases, but, normally, he is considered  
a .230 hitter. If Dessen can hit  
.275 or better, Jennings expects to  
have a championship offensive.

Dessen will be followed by Bush  
in the batting order. Then will come  
Cobb, Veach and Heilmann, all slug-  
gers. Young and Vitt, who follow,  
are fair hitters, but both are regard-  
ed as mighty dangerous in pinches.  
Jennings figures that he will have a  
solid front of dangerous batsmen all  
the way down to the catcher, while  
Oscar Etange, the first string back-  
stop, is a regular Cobb when he is in  
the midst of one of his hitting  
streaks.

Two or three times a season  
Stange breaks into the limelight  
with a series of batting performances  
that threaten to boost his average  
into the .300 class. But eventually  
the streak, like "the flower that  
blooms in the spring" withers and  
dies and Stan has to wait until the  
spirit moves.

Ann Arbor, Mich., April 11.—  
Michigan's track team which looked  
like thirty coats at Christmas, and  
which now is casting eyes at the con-  
ference title, lost no time in start-  
ing its outdoor work.

The athletes are working hard for  
the first important meet, which will  
be the Drake relay championship on  
April 20. Michigan expects to enter  
two or more relay teams and, of  
course will have Carl Johnson in the  
hurdles, the 100-yard dash and, pos-  
sibly the high jump. This star is ex-  
pected to win at least two first  
places.

Enlistments have shattered Michi-  
gan's veteran resources for the mile  
relay. Forbes, who won third place  
in the 440 at the indoor conference  
games, has enlisted in the navy and  
Fontana and Scofield also have de-  
parted. It is possible that the team  
to be entered for the Drake events  
will be composed of Kreuger, Mes-  
ner, Zoellin and Stoll. For the two-  
mile relay Stoll, Kreuger, Sedwick  
and Donnelly have been mentioned.

The hand grenade event, an addi-  
tion to usual athletic programs, will  
receive generous attention from Michi-  
gan athletes.

St. Paul, April 11.—Jack Dempsey,  
the Pacific coast heavyweight, and  
Billy Miske, of St. Paul will meet in  
a ten-round contest here on May 3.  
Instead of April 26, the original date.  
The change was made at the request  
of Dempsey.

Columbus, O., April 11.—Harold  
Pogue, a former noted quarterback  
at the University of Illinois, is in  
Columbus attending the army balloon  
school located on the campus of Ohio  
State University. He will undergo a  
course of training before sailing for  
France.

Milwaukee, April 11.—Baseball  
games in Milwaukee will start at  
3:30 p. m. this season instead of 4  
o'clock, the time advocated by some  
of the club owners of the American  
Association.

Columbus, O., April 11.—Mordecai  
Brown, the veteran major league  
pitching star of "three fingered"  
fame, again will assist Joe Tinker,  
manager of the Columbus club, this  
season. Tinker is relying on Brown  
to instruct young pitchers.

McAlester, Okla., April 11.—The  
Western Association, hard hit like  
all other Class D leagues, will open

## Encourage Boys and Girls To Plant A Garden

TEACH the youngsters to grow food. Give them the  
delight of watching nature's development from tiny  
seeds to crisp vegetables. Encourage children to become  
food producers and help win the war.

Dependable, tested seed will bring most satisfactory results. Select  
the varieties needed for the children's garden from the STERLING  
Seed Case. In almost every community of your state, dealers sell  
and recommend these hardy, productive seeds.

Names of the nearest dealers who handle Northrup, King & Co.'s

Potato Butter.  
Potato is recommended by

the British Ministry of Food as a  
cheap substitute for butter, being  
made in England at a cost of less  
than 10 cents per pound, as follows:

"Peel the potatoes and boil until  
they fall to pieces and become  
floury. Then rub through a fine  
sieve into a warmed basin 14 ounces  
of potatoes and add 2 ounces of but-  
ter or margarine and 1 teaspoonful  
of salt. Stir until smooth and then

mold into rolls and keep in a cool  
place. To make the appearance ap-  
provable use butter coloring, and if  
intended to keep beyond a few days  
a butter preservative should be ad-  
ded."

### SIX-CLASSES GERMAN VOTERS PROPOSED.

Amsterdam, April 11.—(Correspondence of The Associated Press).—A six-class voting franchise is proposed for Germany in the new Prussian Franchise Bill as amended by the Junker Party.

Every voter is to have one vote, and any voter may have additional votes under five special qualifications, age combined with number of children, property, income, established position as an employer, and education.

Under the first qualification, every voter who is over 50 years old and has had not less than three legitimate children, gets one additional vote. The second qualification gives an additional vote to every elector who pays property tax. Thirdly, an

additional vote is given to every voter whose income tax exceeds the average amount of income tax paid by the residents in the same parish, or who, alternatively, has an income exceeding \$750 a year. Fourthly, an additional vote goes to all employers of labor and all independent farmers or peasant farmers. Finally, an additional vote is given to all electors who have reached one of the upper classes of a secondary school.

## MIDDLETON HERE WEEK FROM TODAY

Arthur Middleton, the noted baritone, is to be in Ada next Thursday evening, according to information given out by Prof. A. L. Pentem, principal of the high school. Middleton was scheduled to be here in February, but sickness prevented his filling that date. He will be here next week to delight the audience that is anxious to hear him.

Mr. Pentem believes it will be necessary for those of Ada who want to hear the noted American singer to get seats at an early date. The big district track and field meet is to begin in Ada on Friday, April 19, and Mr. Pentem believes that hundreds will come in the evening before and take the opportunity of hearing the noted baritone. In this case, he says, if Ada people wait they may have to miss an opportunity.

### ARKANSAS PRIMARY SET ON MAY 28

(By the Associated Press). Little Rock, Ark., April 11.—On May 28 members of the Democratic party in Arkansas will participate in a primary to select candidates for the nomination of United States senator, representatives in congress from seven districts, governor and several other state offices.

The time limit for filing has not yet expired and a number of prospective candidates are being discussed to make the race against those to whom no opposition has been announced.

For the nomination of senator and governor, observers say, all the candidates whose names will be upon the ballots have filed. Senator Joseph T. Robinson, the incumbent, will be opposed by Stephen Brundage of Searcy, a former representative in congress. Governor James C. Brough will have for his opponent Judge L. C. Smith of De Witt.

Five incumbents in the seven congressional districts so far have no opposition. They are:

T. H. Caraway, First District; W. A. Oldfield, Second District; J. N. Tillman, Third District; Ous T. Wingo, Fourth District; Sam M. Taylor, Sixth District.

In the Fifth District Representative H. M. Jacaway will be opposed by M. E. Dunaway, prosecuting attorney of Little Rock. In the Seventh Representative W. L. Goodwin will face John L. Carter of Eudora, a state senator.

### WORLD'S LARGEST CONCRETE SHIP MADE IN AMERICA

Within recent weeks the world's largest reinforced-concrete ship has been launched at Redwood City, California. The vessel was built in a calling period. It is 336 ft. over all, 43 ft. of beam, and has a deadweight carrying capacity of 5,000 tons, and it is stated that the hull weighs less than would a wooden one of similar dimensions, says the May Popular Mechanics Magazine in an illustrated article.

The freighter has been christened the "Faith," and is to enter the Pacific service. It is the first vessel built by a company that started the construction of its ways only last August. Work on the boat itself began in September. The speed of its construction and its size are at first thought somewhat surprising. It is interesting to know, however, that the "Faith" is to be followed by boats of 7,500-ton capacity and that the company expects to be able to construct 54 of them in 18 months. It is reported that only \$15,000 was invested in the yard where the initial craft was laid down. This is a striking phase of concrete shipbuilding. Extensive equipment is not required, as is well illustrated by the character of the power plant employed in the construction of the "Faith." It was the simplest possible installation for operating a mixer and hoist.

It is worthy of note that the government has perfected a large organization for building concrete ships.

### There Are Always Others.

In every circumstance of our lives lies the stirring knowledge that one's own case, however strange, is far from being singular. There are others besides myself with whom Poverty has taken up its abode; there are others from whose cup Despair has daily drunk; who, looking up from their daily bread, have found Sorrow's eye forever on them.—Laura Spencer Porter, in the Atlantic.

The War Savings Stamp is the solar plexus of the great mass of the American people and will make the American and his militaristic system take the count.

## JONES CHAPEL MAKES BEST CAMPAIGN RECORD

Speaking of the best record made by a school district in Pontotoc county in the Liberty Loan campaign, Jones Chapel has gone over the top by a larger per centage than any other. The assessment of the district was \$1,000 and subscribed \$2,100. This is rather larger than the per centage of Cedar Grove which raised \$5,050 against an assessment of \$2,500.

### HOW BRITISH WAR CABINET OPERATES

London, April 11.—(Correspondence of The Associated Press).—Representatives of the British fighting forces on land and sea attend every meeting of the British War Cabinet, communicate to the members of the cabinet the latest information concerning the war and consult with them on important questions.

At these conferences the army is represented by Major General Sir Henry Hughes Wilson, Chief of the Imperial Staff, and the navy by Vice Admiral Sir Sorely Wemyss, First Sea Lord of the Admiralty.

Now the British War Cabinet operates in deciding upon war policies and directing Britain's share in the war is told in the annual report of the Cabinet now published for the first time in history.

"At each meeting," says this official statement of the workings of the inner circles of the British government, "the Cabinet begins by hearing reports as to the progress of the war since the preceding day. Unless it wishes to confine its deliberations to general questions of policy, it then proceeds to deal with questions awaiting its decision. As these questions in the vast majority of cases affect one or more of the administrative departments, almost all its meetings are attended by the ministers and their chief departmental officials concerned."

"The majority of the sessions of the War Cabinet consist, therefore, of a series of meetings between members of the War Cabinet and those responsible for executive action at which questions of policy concerning those departments are discussed and settled. Questions of overlapping or conflict between departments are determined and the general lines of policy throughout every branch of the administration co-ordinated so as to form part of a consistent war plan."

"Ministers who are not members of the War Cabinet are permitted to bring with them to the cabinet meetings experts from their own departments or from elsewhere and often do so when expert opinion is needed to decide an important question."

"In peace times, sessions of the British Cabinet were infrequent but under war pressure this has changed. The War Cabinet has held 300 sessions in the past year."

## MICHIGAN YOUTHS IN CRIME PACT

Inspired by Lurid Pictures of Ex-lortion Scenes Seen in the "Movies."

Mt. Pleasant, Mich.—Six schoolboys, ranging in age from fifteen to seventeen years, and members of prominent families here, are believed to be the members of the gang of blackmailers operating under the direful title of the "Black Four," with the object of obtaining, through threats of death, money from business men and other well-to-do citizens.

It is believed the daring youths were led into a life of crime through witnessing the many "vampire" and "underground" pictures shown in the

The Boys Called Themselves "The Black Four."

"movies." The names of the schoolboys have not been made public and no arrests have taken place.

The boys are said to have confessed to threatening George H. MacGillivray, a drugist of Mt. Pleasant, with destruction of property in case he refused to hand over \$500. A letter containing the threat was found under MacGillivray's drug store door. The boys called themselves the "Black Four." Only four boys were at first members of the band, which was organized some months ago. Two more were admitted later.

John S. Weldman, president of a state bank and one of the wealthiest men in the county, received a letter threatening himself and family with death if he did not leave \$30,000 buried in a certain place.

The charter of the "Black Four" is in the hands of the sheriff and reads as follows:

"We do hereby promise to be loyal to our gang and risk even death for its honor and glory, and to the traitor death."

### HOLDS DOWRY, LOSES HUBBY

Wife Charges That New York Attorney Demanded \$10,000 or a Divorce.

New York.—"Your father got the best of me. He promised me \$10,000 to marry you, and he didn't give me a cent. I don't care whether he gave you the money or not. The money belongs to me. You are responsible."

This declaration, according to the complaint filed by Mrs. Selma Levinson, in a suit for separation from Isaac Levinson, a lawyer, was made by the defendant just one month and two days after their marriage.

The plaintiff alleges the defendant told her he would get the money. It is not in an agreeable way—in one that would be disagreeable.

"If you don't give me that \$10,000 then I want to get a divorce," the plaintiff says she was told.

According to Mrs. Levinson, she received \$10,000 as her dowry, but the defendant did not get it nor was he promised it.

### MAN STUMBLES ON FORTUNE

Janitor Picks Up Paper and Finds He's Heir to Half of \$800,000 Estate.

Greensburg, Pa.—C. E. Ellsworth, janitor at the public school building, swept out the rooms as usual the other night. A bit of paper caught his eye and he read that he was heir to half an estate of \$800,000.

The estate is that of Robert L. Ellsworth, aged eighty-eight, who died 18 months ago at his home in Washington and left his entire fortune to his nephew in Greensburg and his sister, Mrs. Elvina Blonden of Washington.

The nephew here had lost all trace of his uncle, neither having seen nor heard from him for more than forty years. Soon after he received notice of his fortune from an attorney.

### 9,500,000 Acres of Wheat in Kansas.

Topeka.—The Kansas board of agriculture has estimated that 9,500,000 acres of winter wheat have been sown in that state. Based on 100 per cent condition of the state's growing wheat is 70.1 per cent, or lower by 5.8 points than was reported a year ago. The government apportionment of wheat for Kansas was 10,000,000 acres.

### ARE WOMEN PHYSICALLY FIT?

Women are now being urged to take the place of men as farm laborers. "Are they strong enough to do the work?" is the question often raised. Dr. Harvey W. Wiley answers it in the current Good Housekeeping. He says in part:

"Women are not physically capable of doing much of the hard work that men do. This fact is too self-evident to warrant any opposition to its truthfulness. Women are six inches shorter than men; they weigh fifty pounds less. Therefore, in so far as mere brute power is concerned, it takes three women to equal two men. The only difficulty, then, that we would encounter in filling the places of the men at war is in finding three women for each two men. To my mind that is not particularly difficult. There are, of course, limitations which cannot be disregarded, and these we must observe. In so far as skill is concerned in all kinds of labor, I believe that women acquire it as rapidly as men. There is no question of the fact that, in so far as actual accomplishment is possible men are better suited to do heavy work than women, but women can do it and do it well. When it comes to the endurance of hardships and fatigue, woman is quite man's equal; in fact, I think she is less complaining under stress than man. Her muscles are not so large as those of man, but they are quite as flexible and enduring in their efforts. Hence, in my opinion, there is no industry in the country whose doors should not be wide open to women."

### MAY FIX PRICES OF DOMESTIC NECESSITIES.

Washington, April 11.—Stabilizing of prices of domestic necessities, including cotton goods, woollens, manufactured clothing, shoes and hats was discussed today by President Wilson and his war cabinet. It is understood that the President's counselors believe that drastic action will have to be taken soon or the average citizen will find many of the things he needs out of reach.

While the war cabinet met the first move in what is declared to be a sweeping price-fixing, or stabilizing, scheme being worked out by the War Industries Board was made at a conference between more than fifty lead-

ing cotton manufacturers of the country and the price-fixing committee. While these men represent only the cotton textile industry, meetings with delegations representing the woolen and leather industries are scheduled to work upon the completion of the present conference.

Today's meeting was under the auspices of the National Council of American Cotton Manufacturers, who came here to discuss its present and prospective relations with the government with regard to price and production. The cotton market has been in a chaotic state because of heavy government demands and the industry asked for the conference with a view to determining measures for stabilizing it. The result of the

first session was the appointment of a war production committee headed by Garrison E. Milliken of New York, to present the council's views to the price fixing committee.

The council's committee, which will hold its first meeting in New York at the conclusion of the conference here, will seek to determine upon prices that will be both fair to the industry and to the government.

Heavy demands of the army and navy are using up 60 per cent of the output of woolen mills, and it is said that the War Industries Board will consider this industry immediately after the cotton goods situation is cleaned up.

In some quarters it is declared that a system of standardization of clothes and shoes is being considered by the board similar to that adopted by the English government at prices within the reach of the average citizen.

### CHAPTER XIII.

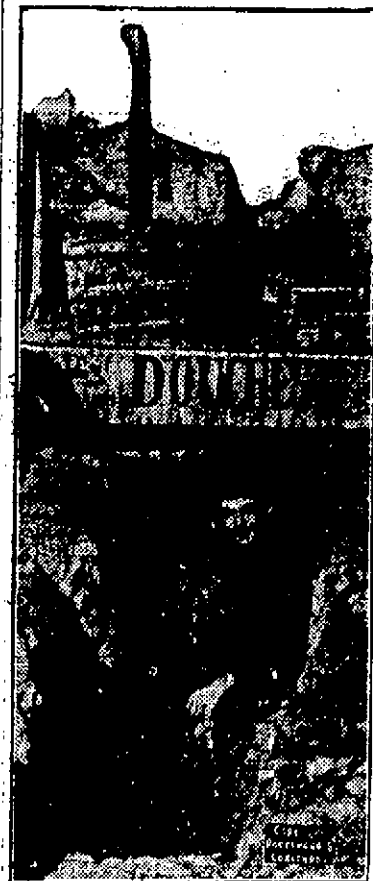

#### My First Official Bath.

Right behind our rest billet was a large creek about ten feet deep and twenty feet across, and it was a habit of the company to avail themselves of an opportunity to take a swim and at the same time thoroughly wash themselves and their underwear when on their own. We were having a spell of hot weather, and these baths to us were a luxury. The Tommies would splash around in the water and then come out and sit in the sun and have what they termed a "shirt hunt." At first we tried to drown the "cooties," but they also seemed to enjoy the bath.

One Sunday morning the whole section was in the creek and we were having a gay time, when the sergeant-major appeared on the scene. He came to the edge of the creek and ordered: "Come out of it. Get your equipment on, 'drill order,' and fall in for bath parade. Look lively, my hearties. You have only got fifteen minutes." A howl of indignation from the creek greeted this order, but out we came. Discipline is discipline. We lined up in front of our billet with rifles and bayonets (why you need rifles and bayonets to take a bath gets me), a full quota of ammunition, and our tin hats. Each man had a piece of soap and a towel. After an eight-kilo march along a dusty road, with an occasional shell whistling overhead, we arrived at a little squat frame building upon the bank of a creek. Nailed over the door

of this building was a large sign which read "Divisional Baths." In a wooden shed in the rear we could hear a wheezy old engine pumping water. We lined up in front of the baths, soaked with perspiration, and piled our rifles into stacks. A sergeant of the R. A. M. C. with a yellow band around his left arm on which was "S. P." (sanitary police) in black letters, took charge, ordering us to take off our equipment, unroll our puttees and unlace boots. Then, starting from the right of the line, he divided us into squads of fifteen. I happened to be in the first squad.

We entered a small room, where we were given five minutes to undress, then filed into the bathroom. In here

A Bathroom at the Front.

there were fifteen tubs (barrels sawed in two) half full of water. Each tub contained a piece of laundry soap. The sergeant informed us that we had just twelve minutes in which to take our baths. Soaping ourselves all over, we took turns in rubbing each other's backs, then by means of a garden hose, washed the soap off. The water was ice cold, but felt fine.

Pretty soon a bell rang and the water was turned off. Some of the slower ones were covered with soap, but this made no difference to the sergeant, who chased us into another room, where we lined up in front of a little window, resembling the box office in a theater, and received clean underwear and towels. From here we went into the room where we had first undressed. Ten minutes were allowed in which to get into our "clubber."

My pair of drawers came up to my chin and the shirt barely reached my diaphragm, but they were clean—no strangers on them, so I was satisfied. At the expiration of the time allotted we were turned out and finished our dressing on the grass.

When all of the company had bathed it was a case of march back to billets. That march was the most uncongenial one imagined, just cursing and blinding all the way. We were covered with white dust and felt greasy from sweat. The woolen underwear issued was itching like the mischief.

After eating our dinner of stew which had been kept for us—it was now four o'clock—we went into the creek and had another bath.

If "Holy Joe" could have heard our remarks about the divisional baths and army red tape he would have fainted at our wickedness. But Tommy is only human after all.

I just mentioned "Holy Joe" or the chaplain in an irreverent sort of way but no offense was meant, as there were some very brave men among them.

There are so many instances of heroic deeds performed under fire in rescuing the wounded that it would take several books to chronicle them, but I have to mention one instance performed by a chaplain, Captain Hall by name, in the brigade on our left, because it particularly appealed to me. A chaplain is not a fighting man; he is recognized as a noncombatant and carries no arms. In a charge or trench raid the soldier gets a feeling of confidence from contact with his rifle, revolver, or bomb he is carrying. He has something to protect himself with, something with which he can inflict harm on the enemy—in other words, he is able to get his own back.

But the chaplain is empty-handed, and is at the mercy of the enemy if he encounters them, so it is doubly brave for him to go over the top, under fire, and bring in wounded. Also a chaplain is not required by the king's regulations to go over in a charge, but this one did, made three trips under the hottest kind of fire, each time returning with a wounded man on his back. On the third trip he received a bullet through his left arm, but never reported the matter to the doctor until late that night—just spent his time administering to the wants of the wounded lying on stretchers.

The chaplains of the British army are a fine, manly set of men, and are greatly respected by Tommy.

## PONTOTOC CO. OVER THE TOP

LIBERTY LOAN BOND CAMPAIGN  
PROVES A GRAND SUCCESS  
EVERYWHERE.

Pontotoc county is over the top in the Liberty loan campaign, several districts are yet to report and in others the work is still being pushed with vigor. Such is the cheering word from county headquarters today. At 2 o'clock this afternoon the figures, as added in the News office, stood at \$429,000. Of this huge sum Ada subscribed \$146,700 and the remainder of the county \$282,300. The quota for the county was \$411,900, of which Ada's assessment was \$145,000, being really somewhat larger than her proportion, but fixed at that to offset any possible deficit that might be reported elsewhere in the county.

In several of the districts every family subscribed for the bonds. If the remainder of the nation does as well as Pontotoc county, the sum will go far above the \$3,000,000,000 asked and postpone to a more distant date the fourth call.
